Objective

Highly motivated web developer with expertise in both front-end and back-end technologies, seeking for an opportunity to use my skills, knowledge and passion for creating user-friendly web applications. Ready to take on various tasks and work in a team oriented environment.

Skills

- Proficient in HTML5, CSS3, JavaScript, React, Node JS, Express and MongoDB
- Knowledge of responsive web design and performance optimazation for web applications.
- Solid understanding of RESTful APIs and integrating them into web applications
- Familiar with version control system such as Git.
- Knowledge of useReducer, useContext and Redux toolkit for managing complex state logic
- Excellent problem-solving skills and ability to debug.

Personal Projects

Meal recipe app

https://s-mealrecipes.netlify.com

https://github.com/Sibusiso75/meal-recipe-app.git

- I have used a third-party API to create a meal recipe website that prepares people to cook meals around the world by just following instructions and using specified

ingredients.

- Created RESTful APIs for registration, login, forgot password, reset password using Express JS.
- Implemented user authentication and authorization using JWT.
- Stored user data using MongoDB

Ecommerce-site

https://github.com/Sibusiso75/ecommerce

https://react-eco-site.netlify.app

- Developed an ecommerce website where users can browse, search, view and add items to their shopping cart
- Implemented cart functionality, allowing users to increase and decrease quantity

Job search app

https://github.com/Sibusiso75/job-search-app.git

https://s-jobsearchapp.netlify.app

- I'm developing a fullstack job search application where job seekers can create their profiles, search, browse, apply for jobs and write about what's on their mind. (website in progress)

Portfolio website

https://github.com/Sibusiso75/portfolio.git

https://sibusisomatebese.netlify.app

- I have created my portfolio website to show case my previous projects, skills and a contact form with email notifications to communicate with potential clients.
