PERSONAL PROJECTS:

MEAL RECIPE WEBSITE

- I have used a third-party API to develop a meal recipe website that enables users to cook dishes from around the globe by simply following instructions and using specified ingredients.

AI resume App

- Creating an AI-powered resume application that allows users to upload their resumes, receive an ATS score, and obtain feedback on how to enhance their resumes. (The app is still in development.)

Booking App

- Developing a booking application using MERN stack.
